

## About the Editors

**Dr. A. K. Tyagi** joined Chemistry Division, Bhabha Atomic Research Centre (BARC), Mumbai in 1986 through BARC Training School (1985-86 batch). Presently, he is Director, Chemistry Group, BARC, and a Senior Professor of Chemistry at Homi Bhabha National Institute (HBNI), Mumbai. His research interests are in the field of chemistry of materials, which includes nuclear materials, functional materials, nanomaterials, energy materials, metastable materials, hybrid materials and structure-property correlation.

**Dr. A. K. Mohanty** joined Nuclear Physics Division, Bhabha Atomic Research Centre (BARC), Mumbai in 1983 through BARC Training School (1982-83 batch). Presently, he is Director, BARC, and a Senior Professor of Physics at Homi Bhabha National Institute (HBNI), Mumbai. He also occupied the position of Director, Saha Institute of Nuclear Physics (SINP), Kolkata during 2015-2019. During his research career spanning about four decades, he has made significant contributions to the fission, fusion and high energy physics research in BARC.
