Scope of Work

1.0 SCOPE:

This specification establishes the requirement for the “Design, Fabrication & Supply of Table Top Electrode Polishing Machine, Table Top Plug Slitting Machine and 180° Vessel Rotating Assembly”. It is not the intent to specify here all the details of fabrication and assembly.

2.0 DRAWINGS:

All the drawings listed below constitute a part of this specification and apply as specified herein. In the event that requirements of drawing conflict with the requirements, decision shall be at the discretion of the purchaser. The purchaser reserves the right to revise the drawings without materially altering the design prior to the approval of the contractors shop drawings. Such changes shall be considered as within the scope of the specified work and shall not be considered extra.

2.1 LIST OF DRAWINGS

1. Schematic Drawing for Table Top Electrode Polishing Machine.
2. Schematic Drawing for Table Top Plug Slitting Machine.
3. Schematic Drawing for 180° Vessel Rotating Assembly.

2.2 DRAWING APPROVAL:

I. Prior to fabrication, the contractor shall submit all shop drawings and final assembly drawing for purchase’s approval. If deemed necessary, the purchaser may make minor modifications at this stage without materials altering the design. All such changes shall be within the scope of the specified work and not considered as extra.

II. The contractor may also suggest modification either to improve the design or to facilitate fabrication. However, acceptance of such changes shall be at the discretion of the purchaser. No modification will be carried out by the contractor without the prior approval of the purchaser.

3.0 GENERAL DESCRIPTIONS:

General: The contractor shall Design, Manufacture, shop test, prepares the shipment and supply to IF3, BARC, Trombay. After supply the same shall be Installed and commissioned at IF3, BARC and its performance shall be demonstrated to purchaser’s satisfaction.

Workmanship shall be in accordance with high-grade practice and adequate to achieve the accuracies and finishes mentioned in the drawings and the specifications to ensure satisfactory operation and service life of the equipment.

All material used shall be in accordance with the relevant IS specifications or equivalent and shall be of recent manufacture, free from all defects.
4.0 INSPECTION AND TESTING:

The contractor shall rigorously inspect and test the total assembly before delivery to ensure that they comply with the specifications and relevant drawings. The purchaser shall have access at all reasonable time to all shops where equipment is being fabricated and assembled and all reasonable facilities for such inspection shall be provided.

5.0 DELIVERY:

After satisfactory completion of the job, the complete assembly shall be suitably packed and delivered at South Site Stores, BARC, Trombay. Extreme care should be taken by the supplier to ensure safe delivery of the equipment.
