Selection to OCES/DGFS-2022 is a two-step process: Screening to short-list candidates followed by Selection Interviews of the short-listed candidates.

There is a separate selection process for each of the disciplines listed in Tables-1a and 1b except for FRT-M (Code 30), FRT-E (Code 31), QA&QC (Code 32) and RSES (Code 44).

- FRT-M (Code 30) is an additional Training Scheme option available to applicants belonging to Mechanical Engineering or Chemical Engineering (Codes 21 and 22).
- FRT-E (Code 31) is an additional Training Scheme option available to applicants belonging to Electrical Engineering or Electronics Engineering (Codes 24 and 25).
- QA&QC (Code 32) is an additional Training Scheme option available to applicants belonging to Mechanical Engineering or Metallurgical Engineering (Codes 21 and 23).
- RSES (Code 44) is an additional Training Scheme option to applicants belonging to Nuclear Engineering, Physics and Chemistry disciplines (Codes 29, 41 and 42). There is no separate Training Scheme called „Nuclear Engineering (Code 29)“ and selected candidates belonging to Nuclear Engineering (Code 29) will be allotted RSES (Code 44) or Mechanical (Code 21) or Chemical (Code 22) as their Training Schemes.

A. Screening for Selection Interviews is based on two alternative methods:

1) On the basis of Online Examination:

- i. Online Examination will be conducted in **April, 2022** in each of the nine Engineering disciplines (Codes 21 - 29) and three Science disciplines (**Codes 41, 42 and 45**) in more than forty cities spread across India.
- ii. Travel Allowance is not paid for appearing in Online Examination.

- iv. All candidates appearing for the BARC Online Examination will be awarded a BARC Online Examination Score as per the methodology outlined in Annexure-1. Shortlisting of these candidates for Selection Interview will be based on this Online Examination Score.

2. On the basis of GATE score:

Candidates will be screened in for Selection Interview on the basis of a valid **GATE-2021 or GATE-2022 score in the applicable GATE subject.** **Applicants with a degree in “Nuclear Engineering” will be screened in only on the basis of Online Examination to be conducted in April, 2022.**

Candidates may note the following:

1. At the time of application, candidates can choose any **one or both** of the above screening options. As the cutoff GATE scores for screening in to Selection Interviews will be finalized only after the conclusion of the Online Examination, candidates are advised to maximize their chance of being screened in to the Selection Interview by **availing both the Screening Channels (GATE score as well as Online Examination)** detailed above.
2. Candidates who opt for screening through Online **Examination will** be permitted to book an examination slot at a centre of their choice, subject to availability. **On completion of Online application process, a link will be provided on the Application Portal for candidates to book their exam venue and exam slot.** Alerts by **email as well as SMS** will be sent to all candidates who have opted for the Online Examination on their registered email address and mobile number as well as announced on this website, after allotment of examination slots. Examination slots will be available on first come, first served basis. **Candidates are advised to visit this website regularly for updates regarding this.**
3. The candidates who have opted for screening **only on the basis of a GATE Score will not be allotted an examination slot** for the Online Examination.
4. **Students graduated/graduating with a Masters Degree from University of Mumbai – Department of Atomic Energy Centre for Excellence in Basic Sciences (UM-DAE CBS) and National Institute of Science Education and Research (NISER), Bhubaneswar in the academic year 2020-2021 / 2021-2022, and whose Cumulative Grade Performance Average (CGPA) is greater than or equal to 7.5 on a scale of 10 will directly be screened into the Selection Interview stage, provided they meet all other eligibility requirements of the OCES/DGFS-2022 program. It is to be noted that this option of being screened in based on CGPA can be exercised only once. Such candidates should first submit their application for the OCES/DGFS-2022 program on the Online Application Portal and subsequently forward their details through the Directors of their institutes.**

(ECIL) and Institute of Plasma Research (IPR), and terms and service conditions of Electronics Corporation of India Ltd. (ECIL) and Institute of Plasma Research (IPR), **Gandhinagar** respectively on absorption.

B. Selection Interviews:

Selection Interviews of short-listed candidates will be conducted in Mumbai (in all disciplines except Geology) and Hyderabad (in Geology). Outstation applicants will be paid **two-way normal AC-III tier train fare to attend Selection Interview**, from their registered residential address, by shortest route or actual fare, whichever is less.

Probable period of Selection Interviews is during **June-July, 2022**. Short-listed candidates will be able to choose an Interview slot, based on **availability, in April, 2022**. Alerts by email as well as SMS will be sent to all candidates who have been short-listed for Selection Interview on their registered email address and mobile number as well as announced on this website, prior to commencement of the Interview slot booking process. **Candidates are advised to visit this website regularly for updates regarding this.**

10. Calculation of BARC Online Examination Score (Annexure-I)

BARC Training School (BARC TS) Online Examination Score After the evaluation of the answers, the raw marks obtained by a candidate will be converted to a BARC TS Online Examination Score. It will be calculated using the formula given below.

Calculation of Normalized Marks for multi-session papers

In BARC TS Online **Examination-2022**, examination for some papers (refer Table-4) will be conducted in multiple sessions. Hence, for these papers, a suitable normalization is applied to take into account any variation in the difficulty levels of the question papers across different sessions. The normalization is done based on the fundamental assumption that "in all multi-session online examination papers, the distribution of abilities of candidates is the same across all the sessions". This assumption is justified since the number of candidates appearing in multiple session papers in BARC online **examination-2022** is large and the procedure for allocation of session to candidates is random.

The following formula for calculating the BARC TS Online Examination Score for the multi-session papers will be used.

BARC TS Online Examination Score of j^{th} candidate in the i^{th} session is S_{ij} given by

$$S_{ij} = \frac{M_{ti}^g - M_{iq}^g}{M_{ti} - M_{iq}} (M_{ij} - M_{iq}) + M_{iq}^{gm}$$

where

M_{ij} = is the actual marks obtained by the j^{th} candidate in i^{th} session

M^g = is the average marks of the selected percentage of top performing candidates considering all sessions.

M_u = is the average marks of the selected percentage of top performing

candidates in the i^{th} session

M_q^g = is the sum of mean and standard deviation marks of the candidates in the paper considering all sessions.

$M_{iq} =$ is the sum of the mean marks and standard deviation of the i^{th} session

M_q^{gm} = mean marks of candidates in the session having max. mean + standard deviation of marks of the candidates in the paper considering all session.

In determining the mean and standard deviations mentioned above, marks of the candidates obtaining negative marks are ignored.

After evaluation of the answers, online examination score based on the above formula will be calculated for each candidate corresponding to the raw marks obtained by a candidate.

For all papers for which there is only one session (refer Table-5) the BARC TS Online Examination Score will be same as the actual marks obtained by candidates.

Table-5
